

Sponsorship Opportunities

The Cyber Resilient Energy Delivery Consortium (CREDC) is a leading academic research and development effort focused on cybersecurity and cyber-resiliency of energy delivery systems for the electric power and oil & gas industries. As part of our mission, CREDC will be hosting a Summer School at the Q Center in Chicago, Illinois, June 12-16, 2017. We welcome your sponsorship support in making the 2017 Summer School a success that also helps to increase your brand awareness with top-tier emerging practitioners and researchers in this area. More information about the Summer School is online at <http://go.illinois.edu/2017CREDCSummer>.

Basic Conference Statistics

- Mixture of academic and professional attendees
- Some of the best emerging talent in the sector
- Expecting approximately 150-200 attendees
- Open to anyone to attend and participate

Sponsorship Highlights

- **Company recognition.** This is a premier event with lasting exposure.
- **Talent recruiting.** Want to increase your pipeline of high-quality talent? They will be here.
- **Digital archives.** Video and media archives will be accessible to all attendees and will be distributed to other interested stakeholders in following years.
- **Hands-on lab opportunities to showcase your equipment, software, etc.** Want your technology in front of people so they can understand and leverage it? Here's a chance.
- **Help promising students attend Summer School.** Want to make sure that pipeline stays filled? Your support of this school invests in current and future talent.
- **Networking events.**
