

2014-2015 AE3 Collins Scholars Program Kick-Off Event

Friday, August 22, Noon-5pm, Room 2405 Siebel Center

Noon-1:00 pm

Lunch, introductions, and overview of the Collins Scholar Program
Leighton Collins legacy
The “Big Ideas”
Collins Scholar activities
Words from last year’s Collins Scholars
AE3 Education Innovation Fellows
(Jose Mestre, Matt West, Luke Olson, Dallas Trinkle)

1:00-2:00

Panel of engineering undergraduate students talking about teaching. Time for Q&A too!

- Sarah Laken
- Jefrin Palsetia
- Dani Tene
- Jacob Calvert

2:00-2:45

Welcome from the Dean
Andreas Cangellaris
Dean, College of Engineering

2:45-4:00

Coffee Break
Juxtaposition activity (in pairs)
Share individual research area—find possible collaboration idea!

4:00-5:00

Reception
Collins Scholars and families
AE3 friends and affiliates
College administrators

What do past Collins Scholars say about the program?

“I really enjoyed the program despite my initial reservations about how it can affect my philosophy of teaching and student mentoring. These reservations dissolved quickly during first weeks of the program. These were well spent Fridays!”

“I really learned a lot. As a result, my teaching is much better and richer.”

“AE3 has given me angles to reflect on my teaching and evaluate it objectively so that I can actually improve and gauge student learning quickly and accurately.”
