

Want to Participate in a Microbiome Study?

You May Qualify If you:

- Are between 45 and 75 years old
- Have no gastrointestinal, blood sugar, or neurological disorders
- Have not taken antibiotics or smoked in the last 3 months

Participation Involves:

- Taking dietary supplements over two separate four-week periods with a 4 week wash-out in between
- 6 laboratory visits (~2 hours each) to Louise Freer Hall @UIUC
- Cognitive tasks and surveys

Compensation:

- Up to \$350

Why participate?

- Help further the scientific knowledge of nutrition and its effect on cognitive skills and gut health
