David Rider
Setup VM (for Mayo Clinic users)

• Prerequisites
  – Be on campus with Mayo Intranet
  – OR –
  – Have access to Mayo VPN/Remote Access on your computer
Setup VM (for Mayo Clinic users)

- Open Global Applications in the Mayo Doc and type ‘VMWare’
- Install
- Login with your Mayo Clinic username & password
Setup VM (for Mayo Clinic users)

• Once logged in, choose the Computational Genomics Course icon (this will be your virtual desktop)
Setup VM (for Mayo Clinic users)

- Once the platform opens, minimize it to split screens with blackboard collaborate, this will allow you to follow along with the TAs.
  *DO NOT open blackboard collaborate within the virtual desktop, it will cause issues. (image below shows VMWare desktop minimized on the left and Blackboard on the right)
