

15th CSL Student Conference
February 26-28, 2020

presents

“

THE WEEKLY RIDDLE

”

Alice, Bob, and Charlie are spending Thanksgiving together this year. With the turkey in the oven, they are going to prepare 3 servings of secondary dishes. Bob is twice as slow as Alice but 1.4 times faster than Charlie in doing the preparations. If Charlie normally takes 112 minutes to do this on his own, how long will it take to prepare 3 servings of the secondary dishes if they work together?
