INTERNSHIP OPPORTUNITY AT AISC FOR SUMMER 2022

The American Institute of Steel Construction is now accepting applications from students enrolled in structural, architectural, or civil engineering programs for a full-time paid internship position at AISC's headquarters in downtown Chicago for Summer 2022. AISC interns support the AISC Engineering and Research Department in developing technical resources for structural steel design.

Qualified applicants:

- Will be enrolled in either a Master's degree curriculum or at least the third year of a Bachelor of Science curriculum.
- Will have completed at least one course in structural steel design.
- Should be planning to continue with their education full time in Fall 2022 to be considered.

Interested students should submit their resumes, including their cumulative GPA and a list of related coursework to hr@aisc.org with "AISC Summer Internship" in the subject line. Any related inquiries can be sent to the same address.
