

RESEARCH BRIEF FOR AFFILIATES

Name	Jeffrey D. Brawn		
Department/Group:	Natural Resources and Environmental Sciences		
Title(s)	Department Head, Professor		
Degrees	Degree, discipline	Year	School
	Ph.D. Zoology	1986	Northern Arizona University
	M.S. Wildlife Ecology	1979	University of Missouri-Columbia
	B.S. Wildlife Biology	1975	University of Massachusetts at Amherst
Emphasis	Food Systems		Food Security
	<input type="checkbox"/> Production <input type="checkbox"/> Post Farm <input type="checkbox"/> Consumer <input checked="" type="checkbox"/> Sustainability <input type="checkbox"/> Social/Economic <input type="checkbox"/> Legal/Policy		<input type="checkbox"/> Availability of food <input type="checkbox"/> Access to food <input type="checkbox"/> Utilization of Food <input type="checkbox"/> Nutrition <input checked="" type="checkbox"/> Stability of availability/access/utilization
<p>Dr. Brawn's research related to food security focuses on the interdependency of food security with environmental change and biodiversity.</p> <p>The current specific areas of his research include: Effects of ecological disturbance on conservation of avian populations and communities; comparative demography of temperate and tropical birds; evolution of life history traits - especially dispersal and clutch size; temporal variation and historical effects on community structure; demography and conservation of small populations; ecology of edges; ecology of urbanization.</p>
