<b>Name</b>	Gay Miller	
<b>Department/Group:</b>	Veterinary Medicine	
<b>Title(s)</b>	Professor	
<b>Emphasis</b>	<b>Food Systems</b>	<b>Food Security</b>
	<input checked="" type="checkbox"/> Production <input type="checkbox"/> Post Farm <input checked="" type="checkbox"/> Consumer <input type="checkbox"/> Sustainability <input type="checkbox"/> Social/Economic <input type="checkbox"/> Legal/Policy	<input type="checkbox"/> Availability of food <input type="checkbox"/> Access to food <input type="checkbox"/> Utilization of Food <input type="checkbox"/> Nutrition <input type="checkbox"/> Stability of availability/access/utilization
Dr. Miller works at the nexus of epidemiology and economics. Recent work has been on foreign animal disease (FAD) emergency preparedness and response. Exclusion of the most dangerous FADs is critical to the economic vitality of U.S. agriculture and many other important economic sectors; globally FADs have implications for food security. I also have strong interests still and did previous work in food safety and efficiencies in food safety along the food chain.		
<b>Countries or regions of collaborations</b>		
Sierra Leone
