

# MIDWEST MICROBIOME SYMPOSIUM

May 11-13, 2026  
University of Illinois Urbana-Champaign  
[go.illinois.edu/mms26](http://go.illinois.edu/mms26)

## About the Symposium

Founded in 2019, the Midwest Microbiome Symposium is the **premier microbiome conference in the Midwest**, attracting researchers from industry, academia, and government annually.

Led jointly by **Ohio State, Purdue**, and the **University of Illinois**, the symposium connects industry leaders with **researchers in human health, agriculture, environmental systems, drug discovery, and bioinformatics**, creating a high-value forum for collaboration, talent recruitment, and innovation.

## Why Sponsor

- Engage with 250+ scientists from industry, academia, and government
- Promote your brand across health, agriculture, and environmental microbiomes
- Recruit and connect with top emerging talent through poster sessions, trainee events, and informal networking
- Gain Midwest-wide visibility through a rotating host model
- Participate in an industry-friendly format built for interaction and collaboration

## Sponsorship Opportunities

### Gold - \$5,000

- Prominent logo placement
- Recognition in opening remarks
