

THWARTS

Tornado Hazard Wind Assessment and ReducTion Symposium

WHAT: Tornado Hazard Wind Assessment and Reduction Symposium (THWARTS)

WHEN: August 14-15, 2023

WHERE: University of Illinois at Urbana-Champaign – iHotel and Conference Center.

WHY: Better understanding of near-surface tornado wind hazards and impacts has to include representation from all relevant disciplines **and** true interaction between everyone performing tornado research.

WHO: All researchers and interested parties investigating tornado-related problems are welcome. Special emphasis on young investigators and students. Specific topics include experimentation, modeling/simulation, observation/measurements, and more!

Key Dates:

Date	Event
June 30	Abstract Submission (subject to change)
July 13	Notification of Abstract Acceptance (subject to change)
July 13	Discounted Hotel Rate
