

Make your own jumping flea!

You will need: 2 paper cups, a sheet of construction paper, a pen or marker, a pair of scissors, a rubber band, a stapler, and a glue stick or tape

STEP 1:

Follow the Draw Your Own Flea instructions to make a flea using the marker and construction paper. Set aside.

STEP 2:

Mark the sides of one of the cups with a pen or sharpie. Make a roughly 1-inch-long mark in the middle of the cup. Make one mark on each side of the cup.

STEP 3:

Cut from the edge of the cup to the mark you made in Step 1. Repeat on the other side. You should now have two flaps on the side of your cup.

STEP 4:

Place rubber band over one of the flaps you made in Step 2. Fold the flap over the rubber band and staple in place.

STEP 5:

Twist the rubber band and place the other end of it over the second flap. Fold the second flap over the rubber band and staple in place.

STEP 6:

Flip the cup over and glue or tape your flea onto the side of the cup.

STEP 7:

Place the flea cup on top of the second cup. Pull down the edge of the flea cup and let go -- watch your flea jump!
