IFFF Insect Art Contest

- For many years, we have held an ***Insect Art Contest*** in conjunction with the Insect Fear Film Festival. The art contest is organized, judged, and presented by graduate students, but participation by teachers and students truly makes the art contest a success. In the past, we have solicited entries from art teachers in area schools, but we think that participation in the Insect Art Contest can extend beyond art classes. ***Any student in the community is welcome to enter.***
- Find more information on our Facebook, Twitter and webpage.
