# The **"A form"** in Wolof

**************

NB: One of the functions of the "**A form**" is its explicit reference to the **subject** as opposed to the **LA form** which focuses on the **object** for example.

## **Ay misaal:**

Man, **maa lekk** ceeb.                                Man, **maa sol** mbubb mu weex.
