

# ENG 598 WTG

## STEM Writing: Practice/Pedagogy

Spring 2022

Fridays, 1-2:50pm

2 credit hours

In-person

### Course Description

Practice writing for professional contexts & learn strategies for teaching writing.

### Why take this course?

This course is designed for STEM graduate students with an interest in improving writing skills or teaching writing. Whether you want to practice writing for industry settings, work toward publication, learn to analyze genres like grant applications, or improve as a writing collaborator, this course offers a useful writing toolkit. The course will also prepare you to give efficient and effective feedback as a TA or faculty member. Past, present, and future TAs are all welcome!

### Course Topics

- The role of writing & communication in STEM
- Feedback & response practices
- Genre awareness
- Rubrics & assessing writing
- Teaching multilingual writers
- Collaborative writing
- Writing scientific abstracts & literature reviews
