

# IDOT and Safety: Restructuring to Advance Safety

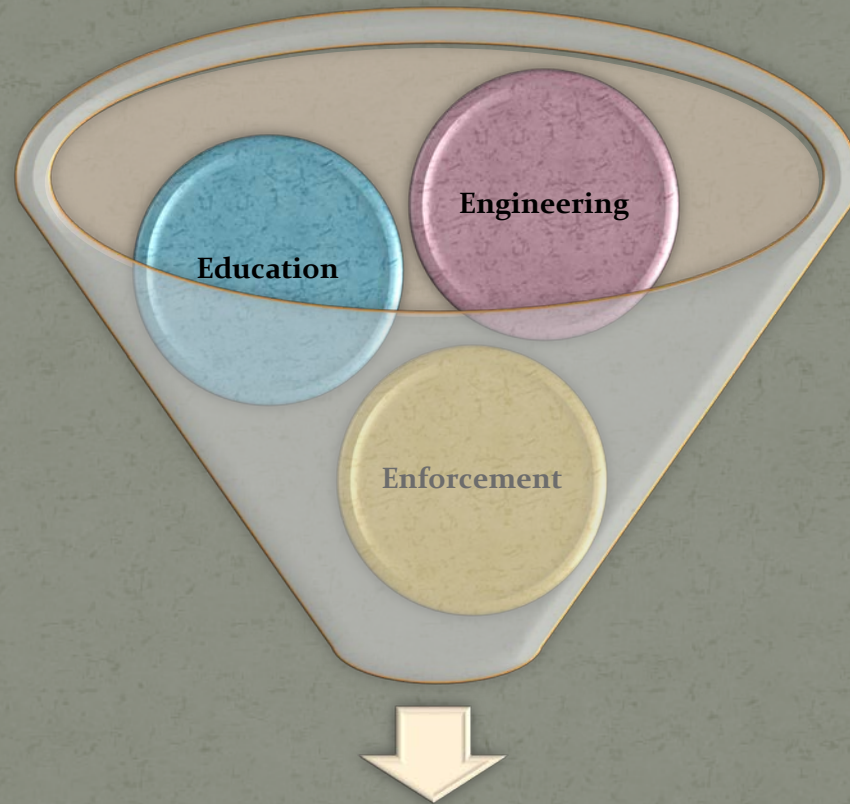

# IDOT Restructuring

- Program Development
  - Bureau of Safety Programs and Engineering
- Planning and Programming
  - Data Mapping and Collection
- Project Implementation
- Communications
- Office of Finance and Administration
  - Bureau of Investigations and Compliance
- Office of Chief Counsel
- Office of Legislative Affairs

# MAP-21 and FAST ACT

- Data Driven
- Focused on Reducing Fatalities and Serious Injuries
- Performance Measures and Targets by States and MPOs.
- All Plans should be linked.
  - Long Range Transportation Plan (LRTP)
  - Strategic Highway Safety Plan (SHSP)
  - Highway Safety Plan (HSP)
  - Motor Carrier Safety Plan (MCSP)

# IDOT and Safety

Multi-Discipline Approach

# Safety Programs & Engineering (BSPE)

Administrative  
Support

Safety Policy &  
Initiatives

Safety  
Programs

Crash  
Information

Safety Analysis  
& Evaluations

# BSPE Administrative Support

- Finance, Budget
- Federal Authorization and Invoicing
- Tracking Expenditures and Funding Levels
- Safety Agreements-local, state, private, etc
- Legislation Monitoring, Review and Analysis
- Administrative Rules
- Technology Support
- **Contact: Courtney Bott**

# Safety Policy & Initiatives

- HSIP
- Road Safety Assessments
- Roadside Hardware
- Highway Safety Manual
- **Contact: Paul Lorton/Filiberto Sotelo**

# Safety Programs

- Directed Engineering and Behavioral Programs
- Highway Safety Programs (Engineering Related)
  - Work Zone Safety (WZ Safety and Mobility)
  - Highway Railroad Grade Crossing Safety
  - Pedestrian and Bicycle Safety
- **Contact: Paul Lorton**
  
- Safety Programs Implementation (Behavior)-HSP Implementation
  - Motorcycle Safety and Training
  - At-Risk Behavior
    - Occupant Protection
    - Impaired Driving
  - NHTSA Program Manager
- **Contact: Steve Esslinger**

# Crash Information

- Crash Information Queries and Requests
- Daily Fatality Reports
- High Level Safety Analysis
  
- **Contact: Ken Martin**

# Evaluations

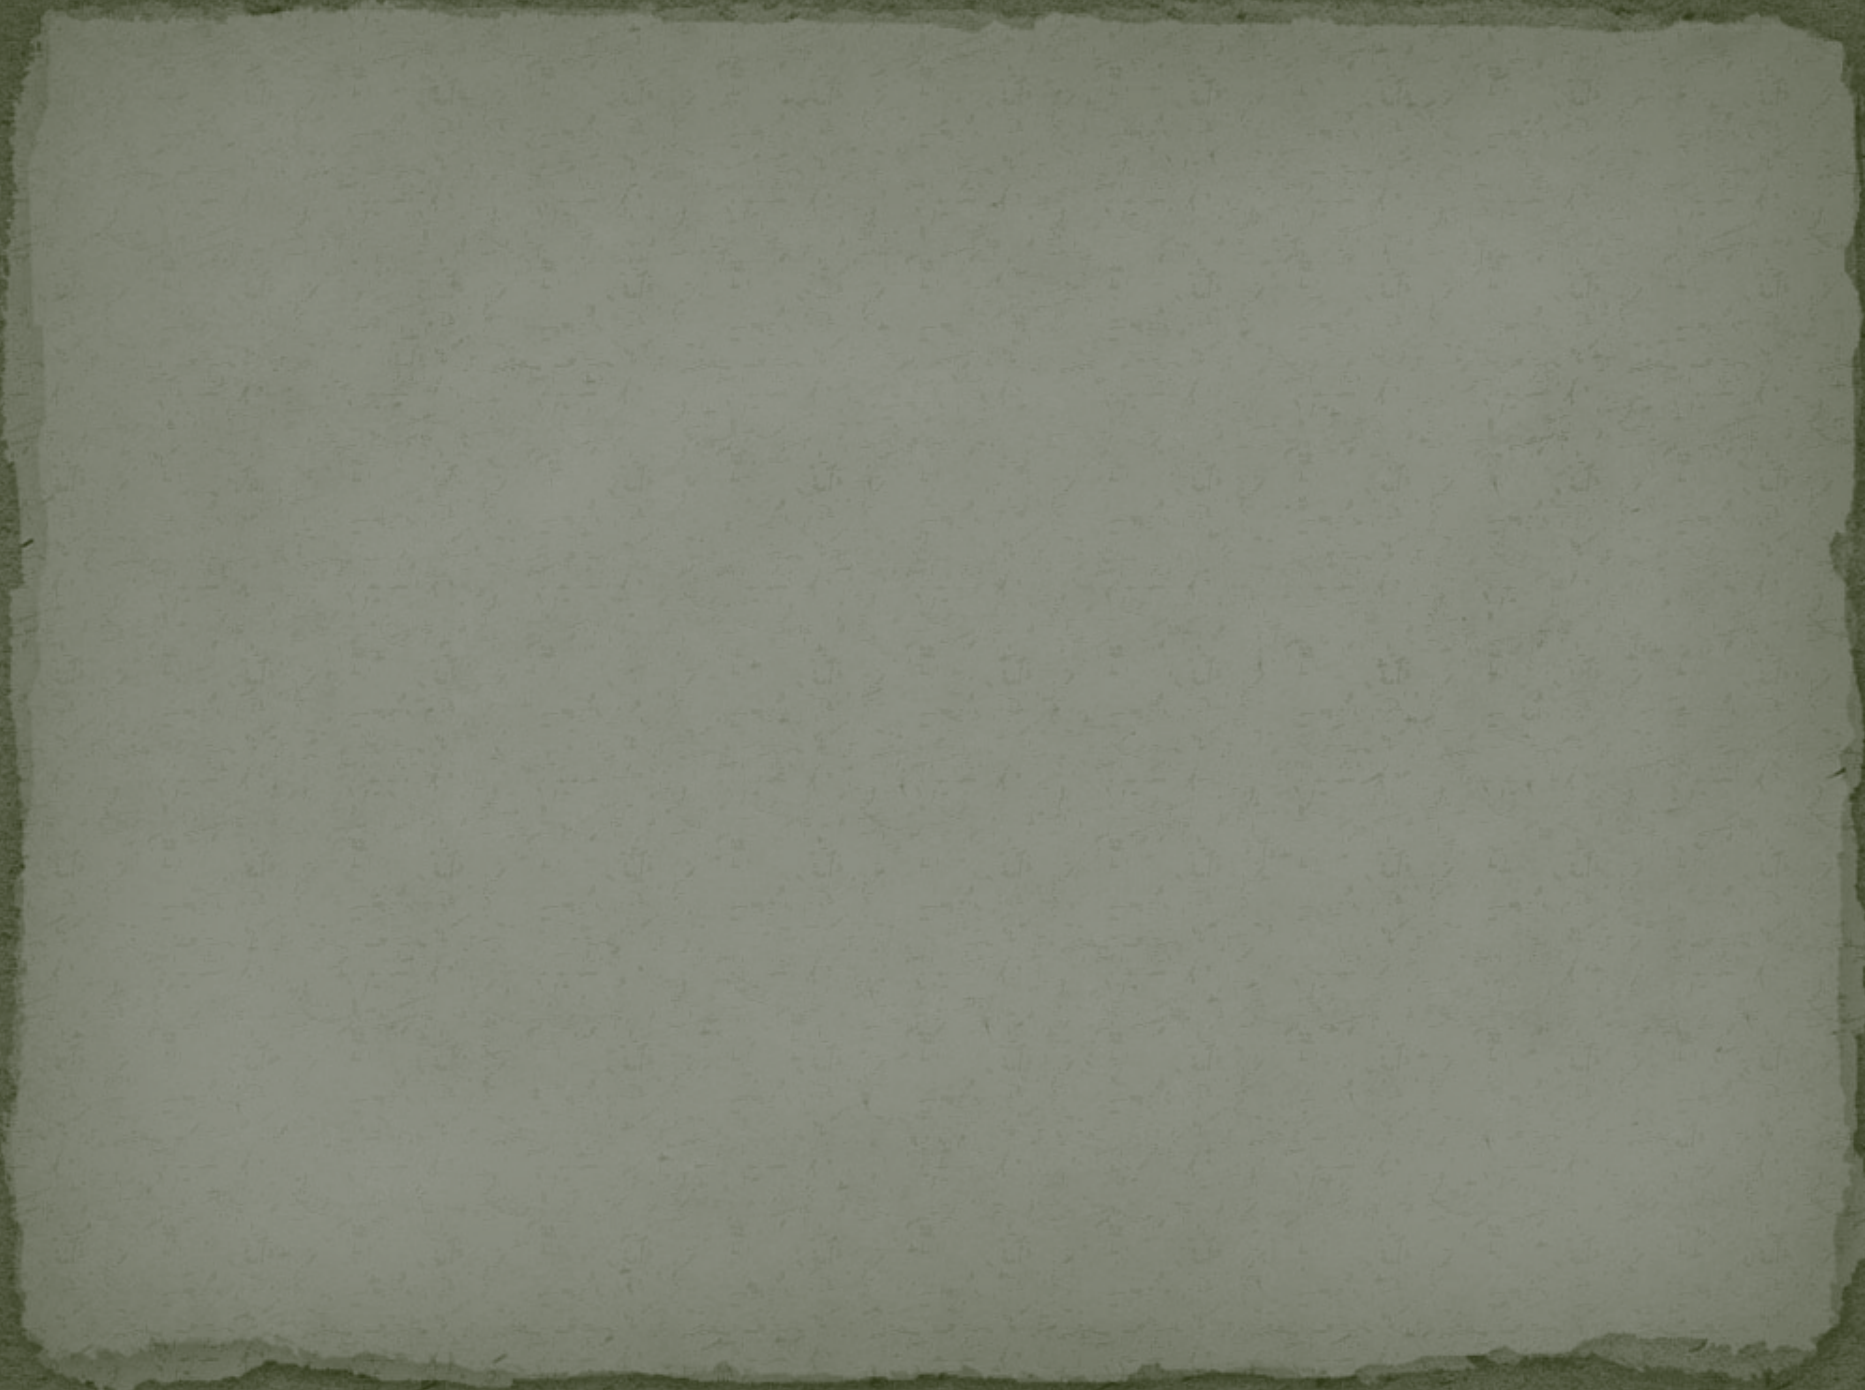

- SHSP Evaluation
- Performance Measures and Targets
- Perform Statewide Data Analysis for Development of Safety Performance Functions –State and Local Roadways
- Developing and Updating Safety Rating Index (SRI)
- **Contact: Mehdi Nassirpour**

# Items of Note

- Multi-Discipline—“Work Across the Aisle”
- More Collaboration between Districts and BSPE
- Filling Key Positions
- Updating Heat Maps and Data Trees
- Requiring Use of Heat Maps with Safety Grants
- Updating State SHSP
- Establishing Safety Performance and Targets
- Local Safety Plans
- Incorporating SRI into the Planning and Programming Process
- Policy for Safety in the Planning and Design Process

# Items of Note

- Build on System-wide Improvements
- Look for Safety Corridors and Implement Multi-discipline Safety Initiatives
- Develop Local Safety Performance Functions

- Priscilla Tobias, PE
- Director, Program Development
